

Online Learning Plan

To begin the 2020-2021 school year Towns County Schools will be offering both traditional and online learning. Once we know how many students will be participating in online learning we will be able to provide more information about the specific aspects of the process. Below are some details that we are able to share at this point that we hope will help parents with making this decision. We hope to send out more school specific information about what online learning will look like at the end of the week.

- Students will have a class schedule of classes just like in the traditional setting. The schedule will be listed in Infinite Campus. This schedule will show enrolled classes and teachers will input grades to the gradebook within Infinite Campus.
- Online Learning will consist of assignments, videos, and live virtual class meetings. The number of each of these components will vary by class. We are currently working to gather teacher feedback to help effectively plan for online classes. Until we know the number of online students we will not be able to make a finalized plan.
- A time will be scheduled for parents to pick up course materials such as textbooks in relation to the scheduled courses.
- Google Classroom will be utilized as the platform for communication of assignments. Google Classroom allows for most assignments to be turned in through the platform. Teachers can be contacted through Google Classroom. Videos and other materials can be uploaded to Google Classroom.
- If there are instances where physical assignments will be turned in, the assignment will need to be delivered to the front office of the school and left in a specified drop off location.
- There will be assignment expectations daily Monday through Friday.
- Grades will be calculated based on student work in the same manner as traditional school. Similar expectations for quality of work and timeliness will be enforced. Completion of all assignments is expected. Failure to complete assignments will be reflected in the student's grade. Parents can see grades in the parent portal of Infinite Campus.
